A love story

Meals are about love. It is a way of showing the people around us that we care and are willing to make an effort. This is the philosophy behind Ummm and the reason why every product has been designed with such great concern – for nature, for our loved ones and for ourselves.

The Danish Heritage

Functionalism is an important part of the Danish design heritage, and the Ummm Boxes and Bowls are no exception. This means you will not find any unnecessary details in the design. Go ahead and try! What you will find is a relentless focus on function. From the wrapping solutions of the boxes to the tight-sealing button lids of the bowls.

Bowls to stay & to go

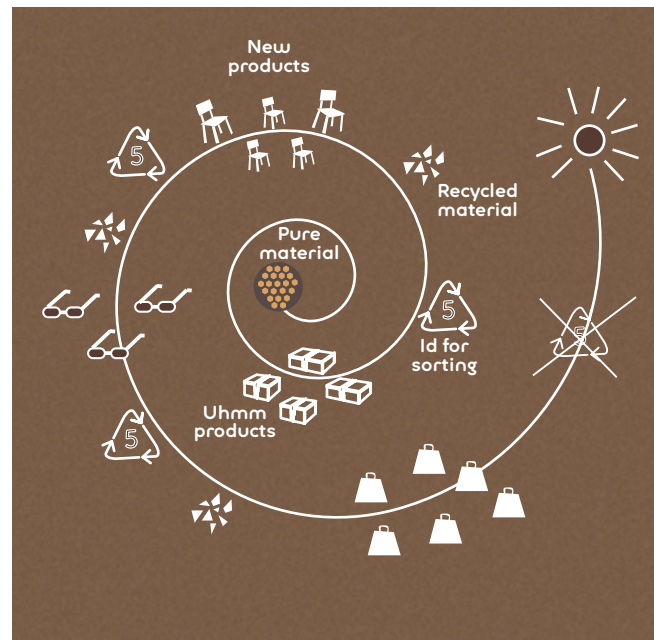

The Uhmm Bowl is the perfect food storage solution, whether you are planning a picnic with friends or wondering how to bring a salad with dressing for lunch at work. The lid on the bowl is tight-sealing and can easily be buttoned on and off. Also, the bowl fits wonderfully in the palm of your hand adding a little extra joy and happiness to your everyday life.

Sustainable & Safe

Everything we do has an impact – on nature and the people around us. This is why Uhmm aims to act responsibly in everything we do.

The Uhmm products are made from pure polypropylene (PP), which is food approved and without parabens and phthalates.

We are required by law to use virgin material when it comes to food. The material is 100% recyclable and can be recycled several times. We call it spiral sustainability.

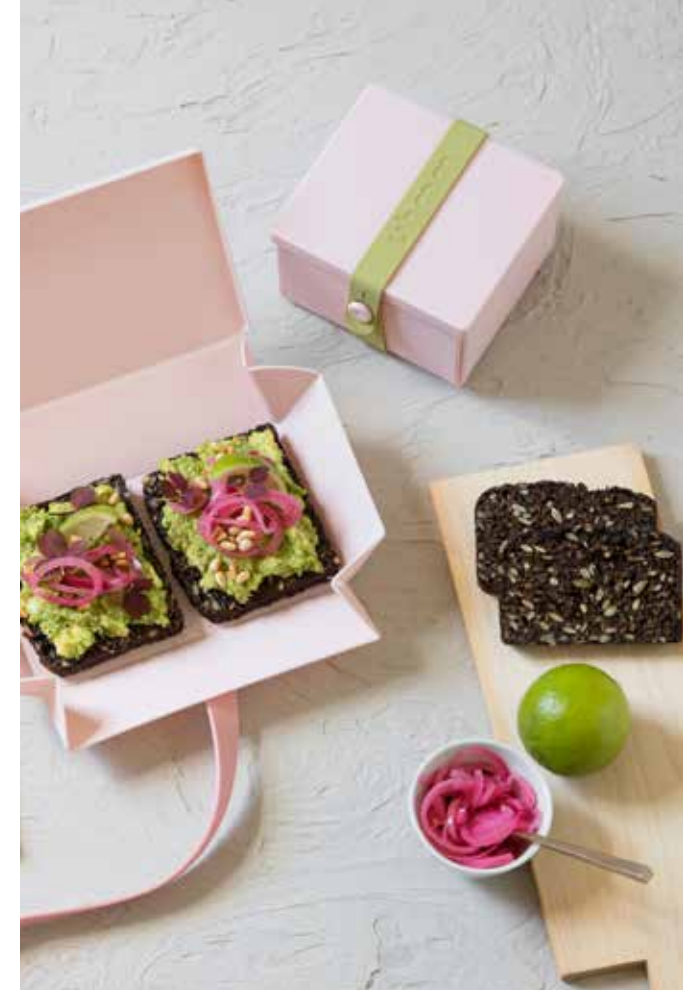

Tight-sealing lid

The Uhmm Bowls all have tight-sealing silicone lids that you easily button on and off. Just as the rest of the bowl, the lid goes into dishwasher, microwave and freezer.

Easy to Stack and Store

The Uhmm Box makes everyday life easier for you. The wrap design fits perfectly into the dishwasher and afterwards you can easily stack it in the kitchen cabinets just like plates.

Did we mentioned, it's also a plate?

Use the Uhmm box for all kinds of solid food when you are on the go. The box makes sure the food can 'breathe' and stay fresh, and the unique folding technique also means you can turn the box into a plate. Functional it is!

Mix and Match

Some prefer green, some prefer blue. The Uhmm Boxes and Bowls come in many different colors that beautifully complement one another. Pick the combination of colors you like...

Not one size fits all

Depending on your menu, to stay or to go, you will need different sizes and shapes of storage. Uhmm offers two different sizes of bowls and two different sizes of boxes.

Hot & Cold

Whether you love to make your own ice cream or heat up yesterday's lasagna at work, the Uhmm products are the perfect solution. They go into freezer, microwave and dishwasher, the straps and lids too.

Showcasing

Uhmm have a solution for showcases in every kind of shop. Smaller set-up for the small store, a display for the larger store or chains - and finally we can support you with great photos to E-commerce/-marketing for the online stores and Social Medias – please look at our [Photo](#) for image photos, Pack shoots and Embossed Pack shoots.

All Uhmm products come in an exclusive uncoated carton packaging made from excess wood chips – more environmentally responsible than ordinary carton

Who we are?

UHMM (yum yum in Danish) is a Danish brand founded by Line, the developer and designer of Uhmm Box.

“Meals are all about love. It is a way of showing how much we care. Making the meal visually appealing by choosing beautiful storage solutions is an important part of this. It is love in a bowl.”

From the very beginning it has been an overall goal to design and manufacture locally and sustainable.
