CHARGING ENABLED PHONES

2-IN-1 INNOVATIVE AND DESIGN CHARGING STATION

Oblio is a Qi-certified 10W wireless charging station with vase look that charges and cleans your smartphone discreetly thanks to its built-in UV LED technology. About 3 hours are required to fully charge a compatible smartphone* and a LED indicator confirms the correct positioning and charging status of the device.

*Compatible with smartphones with Qi charging technology with dimensions up to 8.3 cm wide, 1.05 cm thick - non-metallic case.

CLEAN YOUR SMARTPHONE QUICKLY AND EFFICIENTLY

With Oblio, keep your eyes away from your smartphone screen when charging and cleaning it. Featuring a UV-C* anti-bacterial light that kills 99.9% of germs** on your smartphone's screen in 20 minutes, an automatic sanitizing cycle, and detection of foreign objects technology, Oblio has been laboratory tested against

common bacteria***

*Precaution must be taken to avoid looking directly at UV light while sanitizing operation is in process. Oblio's construction is made to protect your eyes, do not manipulate while in function. **Oblio UV Sanitizer purpose is to destroy bacteria from the surface of your smartphone's screen and not to remove finger prints or any other marks. ***Eciently kills up to 99.9% of proliferating bacteria most commonly identified on smartphones' displays.
